# Website review codewithsundeeep.com

Generated on September 20 2022 07:15 AM

The score is 43/100

## Fast rendering

Generate screenshots in a matter of seconds. Never busy, so there's no waiting in line. Rendering starts immediately and is finished quickly.

## Accurate screenshots

Using two different rendering techniques, we ensure that the screenshots and website thumbnails are always generated properly. If one method fails, the second always succeeds.

## Optimization

	XML Sitemap	<p>Missing</p> <p>Your website does not have an XML sitemap - this can be problematic.</p> <p>A sitemap lists URLs that are available for crawling and can include additional information like your site's latest updates, frequency of changes and importance of the URLs. This allows search engines to crawl the site more intelligently.</p>
	Robots.txt	<p>Missing</p> <p>Your website doesn't have a robots.txt file - this can be problematic.</p> <p>A robots.txt file allows you to restrict the access of search engine robots that crawl the web and it can prevent these robots from accessing specific directories and pages. It also specifies where the XML sitemap file is located.</p>
	Analytics	<p>Missing</p> <p>We didn't detect an analytics tool installed on this website.</p> <p>Web analytics let you measure visitor activity on your website. You should have at least one analytics tool installed, but It can also be good to install a second in order to cross-check the data.</p>
